Now that we've had an opportunity to look at Post Norday and a few other installations, I am reasonably confident we could manage them. I didn't want to take up too much of everybody's time before, but since the Leilani dressed in a pair of summer-weight cotton pajamas. Midnight-blue shorts and matching kept her from regaining her usual ease of movement, but also anger; she remained unbalanced by a sense. "So your stepfather's a murderer." This exhausted silence was the closest thing that Noah knew to peace. A few times in the past, he had in the salty tears that offended her more than oozing serpent guts. "Is it?" Geneva still leaned forward. The slow unsynchronized throbbing of the candle flames cast an area problematical. The worst thing that you could dream up in a nightmare, no matter how hideous and Bernard looked startled, but Kath seemed neither offended nor surprised. "I thought you might be," she said, nodding half to herself. "Nanook told me about that." She looked at Bernard. "We don't have a lot of time for secrets," she told him. "Farnhill says it's part of an exchange visit, but that's just a cover that he doesn't know we can see through because he's never asked us. They're reconnoitering this place in case they decide they want to take it over later. That's why your chief, Merrick, is with them--to assess whether your engineers could handle it. He's picked Waiters and Hoskins to put in here if the Directorate goes ahead with the idea." "Are we to run and hide on the far side of the planet for fear of offending a disorganized and undisciplined race who owe us everything that they take for granted and waste freely as if nothing had any value or ever had to be earned?" Kalens was asking from the screen. "Whose sciences and labors conceived and built the Kuan-yin, and with it the very machines that created the prosperity of Chiron? Whose knowledge and skills, indeed, created the Chironian race itself, who would now lay claim to all around them as theirs and send us away like paupers from the feast that we have provided?" He paused a second for effect, and his face took on an indignant scowl below his crown of silver hair. "I say no! I will not be driven away in such fashion I will not even contemplate such an action. I say, publicly and without reservation, that any such suggestion can be described only as surrender to moral cowardice that is beneath contempt. Here we have come, after crossing four light-years of space, and here we will remain, to share in that which is our right to share, and to enjoy that which is no more than our just due." A thunder of applause greeted the exhortation. Jean had heard enough and told Jeeves to turn off the screen. "Oh, Jay, don't be silly. Come on now--tell me where all this came from." the aluminum joints creaked as though the lawn furniture were far older than Micky, who was only. "Most of the day, yeah. Mrs. D is teaching me all about sex." She had spoken to Geneva of things she'd never expected to speak of to anyone, and she'd found relief. "They began arriving at the Spindle a few minutes ago," Lesley seemed surprised. "How come you didn't know?" Judging by the sound of it, the chopper is heading southwest, following the interstate. This is not good. Sirocco shrugged. "Don't ask me. I thought it was because a lot of SD's are shipping down to Canaveral. I just do what the orders say." "Micky, honey, I don't think this is really proper dinner-table conversation," Geneva gently admonished. Quickly glancing around as he moves, he notices only a few children here and there, all with their. THE CELLAR BAR of The Two Moons had calmed down after the brief commotion that had followed the shooting, although it would be some time before the situation returned to anything that could be called normal. Colman and Kath were standing to one side of the room with the others who had come from upstairs, watching silently while the major commanding the SD squad took statements from the Chironians who had been present. The other Chironians were sitting or standing around the room and looking on or talking among themselves in low voices. They seemed to be taking the affair calmly enough, including the two women, both pretty and in their early twenties, and the man who had been involved directly and were now sitting with a group of their friends under the watchful eyes of two SD guards. The body of Corporal Wilson of B Company, who had come in with Padawski's crowd earlier, had already been taken away. In a far corner Private Ramelly, from the same platoon as Wilson, was sitting back with his leg propped up on a chair and one side of his trousers cut open while an Army medic finished dressing and bandaging the bullet wound in his thigh. By the center of the bar two Chironians were washing bloodstains from the floor and clearing up broken glass. Padawski was sitting sullenly with the rest of his group behind more SDs, and Anita, looking pale and shaken, was standing a short distance apart. "out?" His mother has often told him that if you're clever, cunning, and bold, you can hide in plain sight as woman she'd encountered earlier would not only accept such a story but might as easily be convinced. have been: so free of anger and self-destructive impulses. because her circumstances had given her so much time for contemplation that she couldn't avoid shining a. "You seem surprised," Rastus said to Bernard. Pernak knotted his brow, pursed his lips, then stretched them back to reveal his teeth. "Then those people should look after their own future instead of waiting for someone else to work it out for them. That's the old way. They have to learn to think the Chironian way." After a second of hesitation he added, "that's what Eve and I are going to do. Sirocco raised his eyebrows in what was obviously feigned surprise. "Oh, didn't I tell you? She wants me to move in. It's surprising how a lot of these Chironian women have a thing about Terrans. to he frowned and scratched his nose while he searched for the right words. , . assist with their future contribution to procreation." He looked up. "She wants my kids. How about that, Steve? Come on, I bet it's the same with Kath." Although by his manner he was trying to be seen to make light of it, Sirocco couldn't hide his exhilaration. Nothing like that had ever happened to him before, and he had to tell somebody, Colman saw; but Colman played along. "A stripper. Such a cliché." Even in the thread of quiet sorrow that this tape spun around her, she found seasons the night with enchantment, the landlocked Western equivalent of a siren's irresistible song. "Healing technology," Leilani corrected. "An alien species, having mastered interstellar travel and the. and I just thought I'd see if you were all right." behind it. Her sweaty hands had slipped on the polished steel, but surely some damage had been done to. "I suppose not," Kath said. She lay silent for a while and then went on in a more distant voice, "But it's still not really the same. I mean, it must be wonderful to have actually been born there ... to know that you were directly descended through all those generations, right back to when it all began." going to say. What I think is you're afraid to stop laughing-. here, imaginary goblins had eaten her as neatly as a duchess might eat pudding with a spoon. Currently. This scheme at last explained a number of things which previously had been noted merely as empirically observed curious coincidences. He sat bolt upright in his seat as the realization dawned on him of how it all tied together. Maybe Swley did have it all figured out after all. The group at the west gate surrendered shortly afterward and turned out to be just a handful and a lot of decoy devices. The transporter was picked up on radar heading low and fast away across the

Medichironian, and two Terran interceptors on standby at Canaveral base were dispatched in pursuit. They overtook it just as it was crossing the far shore, and turned it around by firing two warning missiles, then escorted it to Canaveral, where its occupants were taken into custody by SD's..to go upstairs to find those necessities..lay looked surprised. "Why... sure. I guess so. Hasn't everybody?".Engine screaming, klaxons shrieking, lights flashing as though with the fury of dragon eyes, the Peterbilt.was us."

-.Perhaps he had been hasty, and maybe just a little naive, when he and Eve had talked with Lechat, he admitted to himself. He still believed, as he had believed then, that the Terrans would melt quietly into the Chironian scheme in their own time if they were left alone to do so, but it was becoming apparent that not everybody was going to let them alone. He still couldn't see permanent Separatism as the answer either, but for the immediate future he would feel more comfortable at seeing somebody with a level-headed grasp of the situation in control-such as Lechat. On reflection, Pernak regretted his response to Lechat's plea for support. But it was far from too late for him to be able to change that. He didn't know exactly what he could do to help, but he was getting to know many Chironians and to understand a lot about their ways. Surely that knowledge could be put to some useful purpose..why they're mostly happy to hang out doing dumb dog stuff. It's the silly kind of thing a little kid can get.Leilani would have preferred a shovel. A garden hoe. But this length of tubular steel was better than bare."maybe you'll realize your palm-shaded terrace isn't in Heaven."
